ONCE upon a time both a Saddler and a Blacksmith were required to work upon a Horse, but now the boots are done away with, and the Saddler is required no more. And not long ago Missourian Shoeing was very prevalent in this city, but now it is done away with, because the best of judges pronounce it to be only fit for Cayuse Ponies, and not for American Horses.

Having had great experience in the line of HORSE SHOEING, gentlemen favoring me with a trial can rely upon having their work executed in the best workmanlike manner, and upon the most reasonable terms

MONDAY MORNING, SEPT 5, 1864

NATIONAL UNION NOMINATIONS.

For President,
ABRAHAM LINCOLN,
Of Illinois.

For Vice-President,
ANDREW JOHNSON,
Of Tennessee

For Presidential Electors,
GEORGE L WOODS of Wasco County,
H N GEORGE of Linn County,
J F GAZLEY, of Douglas County

THE ALTERNATIVE PRESENTED —By reference to the proceedings of the Chicago Convention, as reported in our dispatch of Saturday it will be perceived that the peace Democrats have given the people their choice either to elect their candidates or submit to civil war They virtually declare that if Abraham Lincoln is re-elected by the people of the Free States, they the Northern traitors, will rise in arms and under the direction of the officers already chosen by them—officers who in the Convention were in a civil capacity but who outside are military leaders of the hosts known as "American Knights," will prevent by bloodshed his inauguration The paragraph containing this threat reads as follows

"Wickliffe of Kentucky, said the delegates of the North West were of the opinion that circumstances might occur between this and the 4th of March by which it will be necessary for Democrats to meet in convention, therefore moved the Convention should not be dissolved by adjournment, but remain subject to the call of the Executive Committee"

What the "circumstances" are which can require this unprecedented action on the part of a nominating National Convention are not clearly defined, but the knowledge which has long since become positive of the armed organization of traitors—comprising the "delegates of the North West" and their blind followers—will interpret the threat as it was intended and "the gentleman from Kentucky" would have created no surprise by the less ambiguous remark that if the minority could not rule they could and would by murder and rapine speedily decimate the ranks of the majority, and repeat the former unsuccessful effort to take the life of the President elect Will the people recognize the right of the treacherous minority to govern them, or will they sustain the Union and govern themselves?

GROUND AND LOFTY TUMBLING —The Copperheads are whipping into the traces beautifully, if not with grace We compare the sentiments of the Eugene *Review* the day before and the day after the receipt of the nominations The day before,

No military hero or war howling civilian will be put forward as the standard bearer of the Democracy of the Republic * * * We anticipate no introduction of McClellanism into the Convention * * * We hope never again to hear McClellan's name mentioned as a candidate at Chicago

The day after

We subscribe to the democratic motto of "principles not men," and therefore yield our support to Geo B McClellan

SECRET POLITICAL SOCIETIES —The Nevada California *Gazette* intimates that John R Ridge has organized secret societies at North San Juan, Grass Valley and elsewhere for the purpose of resisting the draft It also says

We tell the people that secret Copperhead societies exist in almost every county in the State and that the Copperhead members are arming with the intention of resisting the lawful authorities and we again say to the Union men of the country be prepared for their reception

THE RAINIER GOLD AND SILVER QUARTZ MINES The reports from those mines are of a most encouraging character They are situated in the Rainier Mountains, and are represented as equal if not superior to Owyhee Parties are already out with a view to constructing a road from the head of Puget Sound direct but we think they will find their natural outlet, like all the others, by way of Portland

FROM BOISE —The *News* of the 27th ultimo says the Fair held there the previous week netted over $700 We clip the following items

We hear of a new district and city located somewhere beyond the head of Moore's Creek, perhaps some twenty miles beyond Summit City, on Lambro's Creek It is estimated that two hundred people left here on Tuesday and Wednesday for Silver City The banner lodge is situated in that vicinity as well as several other recent gold and silver discoveries, all of which are regarded by experienced prospectors as of the richest character Some parties started out on Tuesday afternoon, with acids and apparatus for testing the rock already discovered, and such others as they may find

A line of telegraph is about to be constructed from some point on the Overland Line between Washoe and Reese River, to Star City, in the Humboldt mines, and as Star City, according to late accomplishments, is only three days and eight hours from Idaho City, the time may not be far distant when we shall be placed in as eligible circumstances as it regards eastern news, as they are at The Dalles, Umatilla or Walla Walla, and should some practical telegraph man or men, with means, take hold and continue the line from Star City to this basin, it would not only make him or them a fortune, but place our people in instant communication with the people of the east

ALBANY —From the *Journal* of the 2d inst, we take the following

Our townsmen Thomas Monteith and John Rowland have been appointed, the former Colonel and the latter Major of the 3d regiment 2d brigade Oregon volunteers Frederick W Folsom of Lane county, has been appointed Lieut Colonel

During last week Mr D D Gray, a citizen of Albany, fell from a building and broke his arm Wm N Miller son of Dr Miller, fell from a load of grain and dislocated his elbow and a son of Mr Linn was thrown from a wagon and broke his thigh

Asa A Hull a resident of Linn county for the last twelve years having a wife and several children, deserted them about three months ago, taking with him one of the children a girl of six years and leaving his family in almost destitute circumstances He was last heard from in Portland representing himself as a widower and is supposed to have taken the steamer for San Francisco Californians may be assured that he has acted the scamp

COUNTING NOSES —An inquisitive individual—an aspirant for political favor no doubt—has been out in the valley among the emigrants "counting noses," and he says that the result of his investigations show that the Democratic candidate for President has lost about one hundred votes on account of men of that persuasion leaving the States and settling in this Territory where they will not be entitled to vote for President —*Walla Walla Statesman*

LOUISVILLE, Sept 2 —Gen Ewing commanding the Western District of Kentucky has just received a telegram from the front announcing that Sherman's advance entered Atlanta at nine o clock this morning No further particulars

NASHVILLE Aug 31 —Sherman has broken up his communications and moved south either to compel Hood to move out and fight or to stand a siege without provisions Sherman can subsist his army off the country. The loss of Gen Hood's wagons during McCook's raid numbering about 500, and the severance of his railroad communications has left him but a few days' rations, and matters will soon be brought to a crisis

LOUISVILLE, Sept 1 —A rebel force estimated at 1000, with 12 pieces of artillery, was within 17 miles of Nashville on the Murfreesboro pike at daylight Rousseau, with a body of cavalry and infantry, went out yesterday noon to meet the enemy's advance Early this morning sharp skirmishing ensued with varying success At last accounts he had driven the rebels three miles toward Murfreesboro

Passengers from Nashville say that Wheeler Forrest and Roddy were engaged in tearing up the track of the Great Western Railroad between Nashville and Tennessee river

The Nashville *Union* says that Rousseau has made such a disposition of his forces there that the rebels cannot injure the railroad He has gone to give Wheeler battle

NEW YORK Sept 2 —The *Herald's* Army of the Potomac correspondent has the following

The Canal at Dutch Gap will soon be in readiness to use

A mysterious looking and to all appearances a formidable craft has been discovered lying in one of the creeks emptying into James river, and it appears to be waiting for some of the monitors to pass up the James when it will run out and cut off its retreat

The rebels are erecting batteries to command our position at Dutch Flat

The rank and file of the rebel army being generally under the impression that if they desert they will be placed in our front ranks Grant has issued an order that those who voluntarily come to our lines shall have transportation to their homes, if within our lines or to any point north they may choose The order will be circulated in the enemy's camp

WASHINGTON, Sept 2 —The latest information says the Army of the Potomac was all quiet Yesterday a number of shells were thrown into Petersburg from the monster 15 inch gun to deter the rebels from firing on our pickets and it seems to have had the desired effect

The *Herald's* special says that the 13th Illinois cavalry has just returned from a scout through Upperville, Ashby's and Snicker's Gaps They had orders from Sheridan for the arrest of able bodied men between the ages of 18 and 50 32 were brought in, including a few of Mosby's men The party destroyed 7,000 pounds of wool, captured 1,000 pounds of cotton yarn and secured 35 horses, some of which belonged to Mosby's men They could not get a fight out of Mosby, although he is reported to have 600 men and six pieces of artillery

The *Herald's* correspondent with Averill's cavalry, under date of Sept 1st, says it was Rhodes' division of infantry with Vaughan's cavalry that attacked Averill's division at Martinsburg yesterday. They apparently hoped to surprise Averill but they failed Early was at Winchester last night The hasty retreat of Rhodes' division this morning indicates that the rebels are moving up the valley The rebels lost both time and men by that last operation. This morning Averill again attacked the enemy with a portion of his cavalry, driving out the enemy occupying the town and continuing the pursuit of the rebels four miles towards Winchester

WASHINGTON, Sept 2 —The Navy Department has received official dispatches from Admiral Farragut It appears that the rebel Gen. Page endeavored to obtain more favorable terms, but was obliged to surrender Fort Morgan unconditionally Farragut states that he has reason to believe most of the guns were spiked and carriages injured after the white flag was raised He also discovered that several officers had [illegible] broken that were surrendered The following is the conclusion of his report

"The whole conduct of the officers at Fort Gaines and Morgan presents a striking contrast of moral principles I cannot fail to remark upon it Col Anderson, commanding [illegible] in an untenable position [illegible] ous number of conscripts, many of whom were boys determined to surrender the Fort, which he could not defend In this determination he was supported by all the officers save one From the moment the old flag was hoisted he scrupulously kept everything intact and in that condition delivered it, whilst Page's officers, with childish spite, destroyed guns which they said they [illegible] which they never defended [illegible] They threw away or broke the weapons which they had not the manliness to use against the enemy Fort Morgan never fired a gun after the commencement of the bombardment and the advance pickets of our army were actually in its glacis As before stated the surrender took place at 2 o'clock P M, the same day All the garrison was sent to New Orleans in the United States steamers *Tennessee* and *Bienville* where they arrived safely

(Signed) FARRAGUT

NEW YORK, Sept 2 —The *Herald's* Mobile correspondent says, the results of the victory at Mobile may be summed up thus We compel the evacuation of Fort Powell surrender of Fort Gaines, and almost destroyed and compelled the surrender of Fort Morgan heretofore considered the strongest fortification in the country We have taken 1,500 prisoners, 100 pieces of cannon, a vast quantity of small arms and munitions of war, also provisions enough to feed the garrison for six months We have captured and have ready for use the ram *Tennessee*, the strongest war vessel afloat also several other war vessels We have [illegible] three English blockade runners All this cost the army but one man, ten wounded, the loss of the *Tecumseh* and part of her crew and a very few casualties on another ship

NEW YORK, Sept 2 —The Bristol Va *Gazette* says The Union cavalry which charged into Rogersville captured J B Heyskill Col Walker [illegible] Blevins and the Provost Marshal together with 19 privates Three privates and three [illegible] were shot down in cold blood by a detachment from the rebel army In the meantime [illegible] from Lennoxville to the vicinity of Bull's Gap while a heavy force of cavalry advanced in that direction on the 23d and attacked the rebels who fell back to Boonsboro We learn that the Yankees advanced to within a few miles of Kingsport

The *Gazette* says Intelligence from East Tennessee represents the condition of our people in that section of country as becoming more distressing

The Petersburg *Express* says the Yankees routed the rebels at Jonesboro and [illegible] north and south of the town This is an effort to hold [illegible] compel Hood to fall back The Yankee force is estimated at 12 000 Jackson's cavalry attacked them The fight is still going on

ST LOUIS, Sept 2 —The Sioux City *Register* of the 27th ult [illegible] the quartermaster's department just arrived from Fort Union He reports that a battle occurred between Gen Sully's command and 5,000 Indians near Knife river on the 28th The latter was defeated with the loss of 150 Our loss was 9 killed and 20 wounded

NASHVILLE Sept 2 —Sherman's advance entered Atlanta this morning at 11 o clock The whole Union army will enter the city to day

WASHINGTON, Sept 2 —The following telegram from Gen Slocum has just been received, which confirms the news of the capture of Atlanta

ATLANTA Sept 2 —Sherman has taken Atlanta The 12th Corps occupies the city The main army is on the Macon road, near East Point six miles beyond Atlanta A battle was fought near that place in which Sherman was successful Particulars unknown (Signed) SLOCUM

Unofficial reports state that a battle was fought near East Point between Sherman and Hood, in which the rebel army was cut in two with heavy loss Gen Hardee was killed Our loss unknown
(Signed) STANTON

NEW YORK Sept 3 —*Herald's* Washington special says Great rejoicing is felt this morning over the glorious news from Sherman's army Atlanta has fallen and is now in possession of the victorious legions of the Republic It appears that while the rebel cavalry were operating in Sherman's rear that officer was prosecuting his movements successfully and at 11 o clock this morning entered Atlanta, and found that his combinations had compelled Hood to evacuate the city The transmission of this intelligence over the wires which had been cut for several days proves that Rousseau has been successful in his effort to dislodge the cavalry expedition under Wheeler, Forrest and Gordon, and has driven them from the road The capture of Atlanta secures possession of the whole State of Georgia and renders the condition of the rebel leaders more desperate than before It was by one of those masterly strategic movements, for which Sherman has become noted, that he has been enabled to achieve this brilliant result

It is now well known that Hood had added very materially to his strength by the conscription of numerous boys and old men who, behind breastworks render very good service, but outside of their works their very strength would prove weakness, and cause a terrible loss of powder and provender Sherman's purpose in the movement which began on the night of the 26th August was to deprive the rebel commander of this strength and the protection of his works at Atlanta in other words Sherman hoped by flanking Atlanta and cutting off his supplies, to force Hood out to fight, and thus, with a largely preponderating force of veteran troops, to whip him in the open field With this view Sherman moved on the night in question with 20 days' rations for his entire army, with the exception of the 12th Corps which had been withdrawn from the front of Atlanta to Chattahoochie bridge there to remain as a Corps of observation, and occupy Atlanta in the event of Hood's abandoning it This Corps was also employed to look after communications and hurry forward by railroad supplies to whatever new position Sherman might assume The army is reported to have moved in the following order The 23d Corps under Schofield in advance followed by the 14th under Davis, 15th under Logan, 16th under Ransom the 17th under Blair and the 4th Corps under Stanley all made a flank movement, with strong skirmishing lines on either flank and in front and rear East Point was left to the east At dawn Hood found Sherman gone

PHILADELPHIA, Sept 2 —A special to the *Press*, dated before Petersburg Sept 1st says The enemy is reported to be moving his artillery to night In the afternoon a slight skirmish began along the Weldon railroad The 5th Corps was placed under arms and marched into the breastworks Some deserters came into the works during the day and said we were to be attacked at 4 P M Excepting a slight skirmishing along the railroad there was no disturbance

BALTIMORE, Sept. 2 —A dispatch to the *American* dated Charleston Va, Sept 2d, says A reconnoissance has established the fact that Early has not left, and that he has no intention of leaving the Shenandoah Valley He has his headquarters at Bunker Hill, half way between Martinsburg and Winchester He is busily engaged in repairing and putting up telegraph line and has already telegraphic communication with Richmond from this side of Woodstock Fitzhugh Lee is known to have received 500 horses for his cavalry, which is said to number 7,000

NASHVILLE Sept 2 —Several miles of the Nashville and Chattanooga Railroad was burned by Wheeler's force yesterday Rousseau drove the rebels to within four miles of Lavergne yesterday meeting with stubborn resistance

Late intelligence reports that the head of Wheeler's column left Murfreesboro pike going to the right About 3 o clock the whole force was moving for the Tennessee and Alabama Railroad in the direction of Franklin Rousseau in close pursuit Persons just from Franklin report the town in the hands of Wheeler's force Our loss in yesterday's skirmishing was 5 killed and 50 wounded Rebel loss 8 killed and 15 wounded We captured a number of prisoners

NEW YORK Sept 3 —The *Tribune's* special insists that there has been a tender of a foreign loan, and that it is under consideration in the Treasury Department.

NEW YORK Sept 3 —The *Herald's* Shenandoah correspondent, under date of Aug 31st says Two days past Gen Averill has been demonstrating against the front, with a view to facilitate the execution of his plans and carrying out orders of Sheridan To day he attacked the enemy at two different roads for the purpose of making him develop his strength On the Charlestown and Georgetown road, nothing but slight skirmishing had taken place while on the Winchester Pike there was all that had been hoped for and desired Early in the morning we attacked the enemy's outposts and drove his pickets in upon the reserves towards Darkesville In the afternoon we again made another attack on the same line, when the rebels placed a division of infantry into line and advanced no doubt to ascertain the strength of the party so persistently annoying them Between one and two o clock the enemy's line reached the outskirts of Martinsburg At this time we opened fire from one section of our battery and soon after the enemy returned the fire from 4 guns, on an eminence somewhat to the right of Martinsburg in front of the rebel position At this time the rebel line of infantry pressed our right and centre, where there was deployed a portion of Schoonmaker's brigade on our left, where was stationed Powell's brigade, there was not so heavy a pressure

Shells from the rebel and Union guns passed over the town without striking any houses in it

The *Herald's* special from Sheridan's headquarters Aug 31, 10 P M says

The enemy, whose main force was presumed to have been concentrated at Bunker Hill about eight miles distant across the Opequhan for the past three days is now understood to be really withdrawing and making up the valley via Middletown and Strasburg Our cavalry always on the alert will have something favorable to report There has been but little skirmishing in front since Monday The prospect of a battle in this valley is becoming dimmer every day

STRONGEST BANK IN THE WORLD —The bank of Genoa which has been in existence hundreds of years has, perhaps proved itself the strongest institution of the kind in the world It is a remarkable fact in its history that its administration has always been as permanent and unchangeable as that of the republic has been agitated and fluctuating No alteration ever took place in the mode of governing and regulating the affairs of the bank and two sovereign and independent Powers, at war with each other, have been within the walls of the city without producing the slightest shock to the bank or causing it to secrete any of its books or treasures

BOILS.

WE READ THAT ONE OF the sorest afflictions that the patient Job was called upon to bear was that of boils and they have been found to be from that time to the present the most troublesome and painful of visitors. We have known instances where individuals were sure to have these eruptions break out upon them once a month at least They show an impure state of the blood and that humor of some kind is lurking there and the overplus of corruption is actually forced to the surface of the body, making its appearance in the form of Boils Now is it not best at once to purify the system? Do you ask what will do this? We answer **Scovill's Blood and Liver Syrup** It is curing humors in every form and there is not a State in the Union where it has not accomplished the most astonishing cures REDINGTON & CO., Agents 416 and Front Street San Francisco aug2

THE FENIAN BROTHERHOOD —This organization is gradually increasing in the number of its members in this city and is well attended at the meetings [illegible] Circleevery Sunday afternoon The Fenian brotherhood is peculiarly an Irish movement, but we believe it is not confined exclusively to that race of people The objects of the organization, which is said to extend throughout the United States, north and south and all over Europe is the independence of Ireland, and all white persons who are friendly to the cause may join the movement if they so please The idea upon which the Fenians appear to act is to bring the sons and friends of Ireland into a common brotherhood—make them act together as one man—each sacrificing his individual views plans and prejudices, to work harmoniously and effectively to secure the great object in view Party politics and sectarian religion have no place in the organization Men smile at the Irish dream of a free nationality for the mother country, they look on its achievement with incredulous eyes, but stranger things have happened

SEEING THE ELEPHANT —Some kind of men and their money are easily parted, the adage tells us and that is the case particularly when they have an abundance We had an illustration in point last week in this city in a young man hailing from the mines, who came hither with a large amount of money on and about him, and while visiting the city thought he must "see the elephant," and was especially anxious to have a close view of the animal, and he did have it coming out in about five minutes it is reported $,000 less on his pile An other are of a verdant came to notice Friday evening on the arrival of the *Wilson G. Hunt* from the Cascades, who had been relieved of a large sum at the Dalles assisted by three or four lieso ute males who desired to be very "fast" friends of his and were no doubt, until his money was gone The probabilities are this class of men will be obliged to pocket their loss with all the equanimity they can muster, and thank their stars it is no worse

HUSSEY'S VARIETY TROUPE —This troupe gave our citizens quite a treat in the minstrel line on Saturday evening The Theatre building was well and comfortably crowded and the entire audience seemed to be delighted at intervals with the performance Julia Morgan appears gallant and brimming over with mischief and is very active in the four or five play which she takes part Miss Laurens sang with some difficulty in consequence of a severe cold Frank Hussey and Billy Sheppard are "perfect bricks" and fill up each interlude with high toned yarns, especially so Mr Mabbott has a good voice and a faculty of singing pieces, whereby he is sure to please all Master Frank and Master Bobby although not the leading characters of the company, are by no means the lesser parts of interest, except in size Taken altogether the troupe is a good one and the parties are deserving They play again to night

REAL ESTATE SALE —The sale of city property on Saturday last on the Caruther's Addition, resulted in the disposal of seventeen blocks at the following figures Block 24 $190 block 23, $460, blocks A to O inclusive sold at the following prices—$460, $520, $515 $450 $280 $ 40 $350 $ [illegible] $240, $165 $280 $310, $280, $200, $240 The location of this property is most eligible, and whether bought on speculation or not, is a good investment in every case. The time must come when the suburban lots of to day will be selected as the spots for private residences, and at the rapid rate we are progressing it will not be long in coming Mr Richardson did the selling for the administrator, and his appeals for higher bids contained "more truth than poetry"

THE PROPELLER WRIGHT —The steam propeller *George S Wright* Capt J T Wright Commander, sailed from this port at 6 o clock P M Saturday last having on board one hundred and twenty tons of Oregon produce for the Victoria market, and a few heads of stock The commander informs us that it is his intention to make another trip immediately to this port, from Victoria, "and another, and another, signifying a permanency for the line We are, and always have been, in favor of a regular line of just such packets between this and Victoria, and with the propellers *George S Wright* and *Jenny Jones* our Victoria friends may calculate on a realization of their hopes so long felt, for an accomplishment of that same purpose

THE GRAPE CULTURE —Since the appearance of grapes the present season we have been informed of several parties who are entering largely upon their cultivation among whom is Mr John Mathiot who has established a depot on Washington street for the sale of the products of his vineyard at Butteville The variety of grapes raised in Oregon is numerous as it now proven, and we are much mistaken if the shipping lists from Portland do no show an excess in exports of wine, over any other product, within a few years The manifest of the barkentine which sailed for San Francisco on Saturday evening shows an export of 28 cases of wine, which we believe is the commencement

SAILED —The barkentine *Jane A Falkinburg* Capt James Frost Master, left her berth at Couch's wharf in this city for Springville, and Oak Point, Saturday evening She takes from Portland 702 sks flour, 1,152 sks bran and middling 261 sks wheat 79 sks oats 97 sks potatoes 2 cases of wine, 1 cask crockery, 4 bbls varnish, 26 bbls ashes, 9 bales wool From Springville she will take 60 tons wheat oats and flour, finishing cargo with lumber at Oak Point, where she will clear for San Francisco The barkentine left in tow of the propeller *Wright*

THE BARRICADES —The barricades erected across Front street by authority of the Commissioner to prevent teams from interrupting the work of the pavers, have been moved up to Pine street, and as far be ow as C street The amount of work being done is judged at from the strong force of men employed That portion of the paving completed between Ash and Vine streets looks very well, and is a big improvement The stones are placed as fast as two teams can haul them from Knott's wharf

REPORTED DISCOVERY OF PETROLEUM —We are informed by an officer of the steamer *John H Couch* that a rumor was in circulation on Friday at Astoria that a rich vein of petroleum had been struck in that vicinity We are not furnished with any particulars but should the matter prove to be true the discoverer has a "good thing" as well as the country unless the prejudice against Oregon stuff drives it from market

COMPLETED TO OLYMPIA —The Capital of Washington Territory was united with the National Capital, and the rest of mankind, at 4 o clock P M yesterday The Superintendent and his gang of work hands, rolled into Olympia at that hour, and after sending us their respects, prepared to attend church in the evening

HOME AGAIN —A large number of our citizens, some of whom have been spending the summer in the East, returned home on Friday evening, by the steamship *Brother Jonathan* To use a somewhat noted and popular contraction they look decidedly "nuff"

IRON BUILDING MATERIALS —The steamer for the Cascades on Saturday took a large quantity of iron doors shutters etc from this city for Hill & Kane, Umatilla They were manufactured at the establishment of Fred Deitchbender, and are intended for a brick building at the embryo city

WANTED —An industrious woman experienced in house-keeping who wishes employment will hear of a very desirable place, by calling at Parish & Holman's Intelligence office [illegible]

The Salem *Statesman* of Friday says:

We learn from good authority that the Indians who were in the late raid on Quartzville, passed the Devil's Gate, via Sweet Water, on last Saturday morning, at 9 o'clock, precisely.

Scovill's stage left here this morning with a load of passengers for Quartzville. A wag remarked, as they started, that they were going to "the front."

Four immigrant teams arrived in town this morning from Keokuk county, Iowa. They came by way of California.

SALT LAKE, Aug. 25.—For some time the public have suffered from robbing mails between Platte and Missouri rivers. Yesterday we learned that Leonard, the Acting Postmaster at Austin, (N. T.,) whose office had severely suffered, and who passed through here some time since in search of the missing mails, laid a plan to reach Jameson, the Postmaster at Fort Kearney, and caught him with all the evidence of guilt upon him. For over a year that office has been suspected, probably by every Postmaster on the line, and at this detection there will be great satisfaction. Judge Carter, the Special Mail Agent of the Overland route, has rendered good service in this affair, for which he will have the thanks of the public.

The *State Journal* says several pack trains are to leave Eugene City for Canyon City loaded with flour, apples, etc., to-day by the McKenzie road.

Appeal to the Citizens and Ladies of Yamhill county.

We would call the attention of every loyal man and woman in our county to the necessity of joining with united, earnest effort in preparing for the State Sanitary Fair, to be held at Salem in September next. To every class in society the call comes for renewed zeal.

We are blessed with bountiful harvests—peace and plenty abound in our midst. Shall we not lend a willing ear to the tale of sickness and suffering and woe, wafted on every breeze from our Eastern borders, where war is desolating so many hearthstones, and death comes in so many forms to our brave, self-denying soldiers?

Let us open our hearts and respond nobly to this our country's call. Let us give of our substance freely—gladly. Let us prepare our offerings and then go with them to the Fair, and in our intercourse with others engaged in the same good work, our hearts will be fired with greater zeal and a warmer sympathy for our country's brave but suffering defenders. Let us feel an honest pride in the patriotism and generosity of our own county and prove it by our good works.

Any donations forwarded to the Committee undersigned previous to Saturday, September 24th, will be duly forwarded to the State Central Committee at Salem.

Mrs. H. V. V. JOHNSON,
Mrs. J. R. McBRIDE,
Mrs. S. C. ADAMS,
Lafayette, Sept. 1, 1864. County Committee.

The Ladies of the "Christian Commission" are requested to meet in the vestry of the Presbyterian Church on Tuesday, Sept. 6th, at 2 o'clock.

P. C. SCHUYLER, Jr., at Smith & Davis' Drug Store, is authorized to receive contributions for the Sanitary Commission during my absence from the City.

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*" give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*
REDINGTON & Co., San Francisco, Agents for the Pacific Coast.

Oregonians should test the merits of Dr. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy26daw

Dysentery.—For Dysentery and similar complaints of the Summer season, the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache—so common in uncleared and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in *disguise*—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections, it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.
Imitations are abroad! Be particular to enquire for *Dr. Osgood's India Cholagogue*. Sold everywhere.

Where's My Boy To-night?

When the clouds in the western sky
Flush red with the setting sun
When the veil of twilight falls
And the busy day is done
I sit and I watch the clouds
With their crimson hues alight
And wonder with anxious heart—
Oh, where is my boy to-night?

It is just a year to-day
Since he bade me a gay good bye
To march where banners float
And the deadly missiles fly
As I marked his martial step
I felt my color rise
With all a mother's pride
And my heart was in my eyes

There's a little room close by
Where I often used to creep
In the hush of the summer night
To watch my boy asleep
But he who used to rest
Beneath the spread so white
Is far away from me now—
Oh, where is my boy to-night?

Perchance in the gathering night
With slow and weary feet,
By the light of Southern stars
He paces his lonely beat
Does he think of the mother's heart
That will never cease to yearn
As only a mother's can
For her absent boy's return?

Oh where is my boy to-night?
I cannot answer where
But I know that where'er he is
He is under our Father's care
May He guard and guide and bless
My boy, wherever he be
And bring him back at length
To bless and to comfort me

May God bless all our boys
By the camp-fires ruddy glow,
Or when in the deadly fight
They front the embattled foe;
And comfort each mother's heart,
As she sits in the fading light
And ponders with anxious heart—
Where is my boy to-night

The class of diseases for which the Syrup provides a cure is precisely that which has so often baffled the highest order of medical skill The facts are tangible the witnesses accessible and the safety and efficiency of the Syrup incontrovertible

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron without further oxidation has been deemed impossible

In the Peruvian Syrup this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN and this solution may replace all the proto carbonates citrates and tartrates of the Materia Medica A A HAYES M D

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation it remained almost useless until Dr Henry Anders a physician and chemist of New York, after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world is attested by certificates of analysis from Dr J R Chilton of this city and Prof Booth U S Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see American Medical Monthly, July 1860, page 70)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer Heart, Liver and Kidney Diseases Rheumatism, Neuralgia Nervous Affections Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh, strength and color; hitherto pale relaxed and feeble, he becomes full strong and florid
